

The background of the entire image is a complex, light gray circuit board pattern with various traces, pads, and component footprints. In the lower half, there is a more vibrant and detailed circuit board pattern with multi-colored traces (red, orange, yellow, green, blue, purple) and several white square components.

Hi-spec advice

Business. Law. Technology.

Right here, right now

Everyone expects technology to work right out of the box, so why shouldn't everything else? Our digital legal team has in-house and hands-on experience of technology, digital and data companies, so we're switched on to business needs and make sure our advice works for you. First time.

Grow digital

Whether you specialise in blockchain or bike chains, whether you're scaling up, investing in new technologies, developing IT systems, websites, apps, we can help. Costly? Not necessarily.

○ **Spending excess time on legal things, like capturing data you don't actually need?**
We'll sort that.

○ **Loopholes in your payment terms that could cost you a fortune?**
We'll sort that.

○ **Liable for costs you shouldn't be?**
We'll sort that too.

There's an array of examples where not having the right legal support can set gremlins loose in your bottom line. Nobody wants that.

Priceless support you can budget for

Hiring the right lawyers that fit your business can make a huge difference. With us, you'll never pay more than we've quoted so you can budget for all your legal needs, whatever they are. For starters, here are a few fixed price packages.

Website health checks from £750

Do you know the ins and outs of website compliance or understand how to draft a privacy policy that works for you? With this package, you don't need to.

- ✓ 1 hour call or meeting to discuss your website and legal documents
- ✓ we review your website and advise on what you need to be compliant
- ✓ we review your privacy policy
- ✓ we review your website terms
- ✓ we review your cookies policy (if separate)

What struck us most was their down to earth approach – their lawyers don't use jargon and speak to business people on their level, while at the same time providing first class legal advice."

Billy Webber, Chief Operating Officer, Software City

New mobile app or website launch package - £5,000

Everything you need to launch and maintain your new app or website, free from legal glitches.

It starts with a 2 hour workshop where we chat through your app/website plans and get to grips with its inner workings. Your products. Your UX. All the nuts and bolts. Then we get busy delivering the legal solutions needed to delight your customers and your technology. This might include:

- ✓ terms and conditions
- ✓ privacy policy
- ✓ cookies policy and cookie banner
- ✓ website or app notices to incorporate terms
- ✓ website and app compliance with the Companies Act

Developer terms and conditions review - £650

Wouldn't it be awful to discover you don't actually own the rights to your website or app after it's been developed? If you're engaging developers, you need to protect your ideas. Here's how we make sure intellectual property is yours.

- ✓ review and amend developers' terms and conditions based on your best interests
- ✓ 1 hour call or meeting to clarify what you're paying for and what you will "own" at the end of the process

Plug-in extra expertise

We have specialists in virtually every area of commercial law so we can respond rapidly no matter what legalities crop up. Here's a snapshot of our many other specialists.

- ✓ data protection
- ✓ intellectual property
- ✓ patents and trademarks
- ✓ corporate finance and investment
- ✓ commercial contracts
- ✓ HR and employment
- ✓ property and construction
- ✓ debt recovery
- ✓ dispute resolution
- ✓ private wealth management

“I've seen first-hand how the digital legal team have supported and helped businesses scale up. They are supportive, down to earth and highly knowledgeable advisers who are true digital specialists.”

Paul Lancaster, Plan Digital
